Theme : How far can Mathematics go ?

A Series of Workshops organised by a Group of former Students

Aim

Introduce students to the usefulness of mathematics and the possibilities open to them.

Duration

12:00 - 14:00 (2 hours)

Location

Centre d'Etudes Nolanga, Cité U, opposite university restaurant no. 2

Audience

Mathematics students of the University of Yaoundé I (especially Undergraduates).

Timetable

- 12h00 - 12h15: Arrival of students and Alumni.
- 12h15 - 12h30: Welcome address.
- 12h30 - 13h00: Presentation of the speakers
- 13h00 - 13h45: Brief description of upcoming Webinars:
    - Actuary
    - Transport & Urban Management
    - Computer Engineering
    - Economy
    - Applied Mathematics
    - Demography
    - Teaching and Research
    - ...
- 13h45 - 14h00: *Q&A* Session.
- 14h00 - 14h15: Excellence awards.
- 14h15 - 14h30: Group picture.

Key Points

- Reveal the usefulness of mathematical concepts in real life.
- Highlight the opportunities (e.g. Scholarships, Grandes Écoles) available to Mathematics Students.
- Share experiences and concrete examples of possible careers.
